

RESTART
YOUR BUSINESS
WITH BV

PROVIDE & DEMONSTRATE ASSURANCE FOR SAFETY AND HYGIENE

BUREAU VERITAS SOLUTIONS TO SUPPORT YOUR RE-START OPERATIONS WITH APPROPRIATE HEALTH, SAFETY AND HYGIENE CONDITIONS.

The priority for all companies is to get back to work as quickly as possible and with appropriate health, safety and hygiene conditions for their employees and their clients and to demonstrate to their customers and users the appropriate implementation of the required protective measures.

HOW DOES IT WORK?

DEFINE THE LIST OF CONTROL POINTS

You can either use Bureau Veritas' ready-to-use checklists developed by a Group of Health, Safety and Hygiene Experts based on Global most recognized Best Practices and Recommendations or customize them with the support of our specialists according to your specific needs.

CONDUCT THE AUDIT

We can conduct both remote audits and/or field audits. It can then be combined with field audits to check that the expected protective measures are implemented efficiently.

GRANT THE LABEL AND THE CERTIFICATE

You can decide to use Bureau Veritas' standard label or to design your own label with a dedicated branding*..

CONSOLIDATE ALL THE GRANTED LABELS AND AUDIT REPORTS IN ONE SINGLE DIGITAL REPOSITORY

All the results of our audits will be gathered in an official central digital repository where the data will be available for you. Bureau Veritas global accreditation ensures independence and recognition of issued labels. You can easily connect your systems with them to use that information in your own websites or applications (open data model).
